Section Header: *Confidential SaniPath Risk Assessment and Urban Flooding Atlanta Survey*
Please complete the SaniPath Risk Assessment and Urban Flooding in Atlanta survey below. Thank you!
Consent Form SaniPath Risk Assessment and Urban Flooding Atlanta Study
You are invited to participate in a study on urban flooding and fecal contamination in Atlanta. Participation in this study involves completing a 30-minute survey using a computer. This study is conducted by Drs. Christine Moe and Amy Kirby from Emory University. This survey will take approximately 30 minutes of your time. You will be asked to complete an online survey about your exposure to flooding and fecal matter in your neighborhood. Your decision to participate in this study is completely voluntary and you have the right to terminate your participation at any time without penalty. You may skip any questions you do not wish to answer. If you want do not wish to complete this survey just close your browser. Your participation in this research will be completely confidential. The final results from the study will be shared with the public. No one other than the study team will know how you answered. Although your participation in this research may not benefit you personally, it will help us understand how human behaviors may lead to exposure of fecal contamination and how many people in your community may be exposed. The results of this study could be used to develop methods to reduce exposure to flooding or fecal matter. There are no risks to individuals participating in this survey beyond those that exist in daily life. Upon completion of the online survey, participants will receive a \$5 gift card, which will be emailed to the participants after the online survey is completed. Participants are paid only one time after completing and submitting the online survey. If the survey is not completed, the \$5 gift card will not be sent to the participant. If you have questions about this project, you may contact Dr. Amy Kirby at floodingsurvey@emory.edu. If you have any questions about your rights as a participant in this study or any concerns or complaints, please contact Emory Institutional Review Board: 404-712-0720 or toll-free at 877-503-9797 or by email at irb@emory.edu. Please print a copy of this consent form for your records, if you so desire.
